A System of Astronomy; On the Principles of Copernicus

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is writter in simple terms instead of difficult to understand. Its been designed in an exceptionally simple way and is particularly only right after i finished reading this ebook in which basically modified me, alter the way i believe. (Prof. Loyce Runolfsson Jr.)

A SYSTEM OF ASTRONOMY; ON THE PRINCIPLES OF COPERNICUS

Not Avail, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1827 Excerpt: .accelerated or retarded about one hundred years by the irregular motion of the earth and moon. An eclipse may visit the earth but 70 times in one series. It will not surpass 77 times. In the one case it will occupy about 1262 years; in the other about 1388 To find how many times an eclipse will happen in the same course, divide twice the eclipt c limit reduced by 28 12 . The ecliptic limit varies as we have seen, from 16 28 to 18 11 . The long interval after an eclipse has left the earth, till it will again return, may be found by subtracting twice the ecliptic limit from 360, dividing the remainder by 28 12, and multiplying the quotient by 18y. lOd. 23h. 3m. 51s. the time intervening between returns. The memorable eclipse of June 16, 1806, total to a large part of New-England, happened at the moon s descending node. This eclipse traversed the expansum from the creation till the year 1049, when on the 6th of March, 0. S. at lOh. 11m. 39s. in the morning, it first met the south pole. It has been moving farther north at each return to the present time. It will make its next visit on the 26th of June, 1824, at 6h. 41m. 10s. in the evening-! The extreme circle of the - To bi, ihg these calculations to the meridian of Boston, where the eclipse was total, acid 23m. 26s....
