Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Land hunger is so general that it may be regarded as a natural craving. Artificial modes of life, it is true, can destroy it, but it is apt to reassert itself in later generations. To tens of thousands of bread-winners in cities a country home is the dream of the future, the crown and reward of their life-toil. Increasing numbers are taking what would seem to be the wiser course, and are combining rural pleasures and advantages with their business. As the questions of rapid transit are solved, the welfare of children will turn the scale more and more often against the conventional city house or flat. A home CAN be created in rented dwellings and apartments; but a home for which we have the deed, a cottage surrounded by trees, flowers, lawn, and garden, is the refuge which best satisfies the heart. By means of such a suburban nook we can keep up our relations with Nature and all her varied and health-giving life. The tired man returning from business finds that his excited brain will not cease to act. He can enjoy restoring rest in the complete diversion of his thoughts; he can think of this tree or that plant, and how he can fill to advantage unoccupied spaces with other trees, flowers, and vegetables.
