Brand New Book ***** Print on Demand *****.Excerpt from Homo-Culture or the Improvement of Offspring Through Wiser Generation During all ages since man came to himself, there have been enlightened ones seeking to improve the race. The methods proposed have been various, and in accordance with the knowledge and development of the time in which they have appeared. Some have believed that education and environment were all-sufficient; others that abstinence from intoxicating drinks would suffice. A very considerable number have held the idea that by prenatal culture alone the mother can mould her unborn child into any desired form. The disciples of Darwin, many of them, have held that natural and sexual selection have been the chief factors employed by nature to bring about race improvement. No doubt all these factors have been more or less effectual, but the time has come for man to take special interest in his own evolution, to study and apply, so far as possible, all the factors that will in any way promote race improvement. In the past this has not been done. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
