HUMAN

MultiModoMedia. Paperback. Book Condition: New. Paperback. 346 pages. Dimensions: 8.7in. x 5.4in. x 0.8in. Read the Kirkus Review below! Elijah Smith's mind has been replaced, piece-by-piece, with virtual counterparts. His transformation thrusts his survivors into a maelstrom of violence, danger, and intrigue. Only Smith has the power to save them -- provided that he is still human. Mankind has been merging with his technology since the first time a caveman picked up a walking stick. We easily accept the fact that eyeglasses, pacemakers, and prosthetic limbs improve or replace human biology. Soon we will have to accept the fact that mind too can be improved or replaced by the addition of technological components. HUMAN combines elements of spy thriller, science fiction, and romance to drive the story to a feverish climax. The haunting conclusion will make you question everything you think to know about what it really means to be human. With the help of the precocious but scarred Dr. Bayron and Hermelinda Smith's nurse and lover, death isn't the only option for Smith. Using materials imported from a Russian researcher who attempted to recreate the mind of a deceased government agent, Bayron sets out to reconstruct a digital model of Smith's brain that effectively preserves his consciousness in a prosthetic mind. Though the experiment accomplishes its goal, both Smith and Bayron soon discover the dangerous knowledge contained in Smith's hybrid mind: The Russian operative, whose memories Smith inherited, was one of three individuals who knew...
